

PRODUCT POSITIONING

The CRUX® 2^{GTX} brings reliable, waterproof breathable protection to our best-selling approach shoe. Featuring a GORE-TEX® membrane, it keeps water out while maintaining comfort inside. It retains the essential and versatile sticky rubber outsole for unmatched grip, and a durable suede upper. This is the legendary CRUX® 2^{GTX}, now ready to tackle wet and unpredictable conditions with confidence.

M 72054/201

W 72054/202

FEATURES AND BENEFITS

- 01** **Upper:** Suede upper with webbing and stitching reinforcement backed by GORE-TEX® ePE lining
- 02** **Rand:** Protective rubber toe rand for increased protection, friction and durability
- 03** **Lacing System:** Lace-to-toe lacing for a secure fit with recycled content.
- 04** **Midsole:** Dual density midsole provides the perfect blend of support and cushioning
- 05** **Outsole:** Vibram® outsole with Megagrip rubber compound offers excellent grip on both dry and wet terrains while maintaining a high level of durability

SPECIFICATIONS

- Upper:** 1.8mm Suede + Polyester Mesh (PFAS Free)
- Lining:** GORE-TEX® ePE (PFAS Compliant)
- Insole:** Recycled Polypropylene
- Midsole:** 2D EVA MP
- Outsole:** Vibram® Vertical Approach / Megagrip
- Last:** (M) BN
(W) BN
- Sizes:** (M) 40-47 (½ sizes), 48 (whole sizes)
(W) 36-42 (½ sizes)
- Weight:** (M) 420g; 14.8oz (½ pair, size 42)
(W) 335g; 11.8oz (½ pair, size 38)
- Origin:** Vietnam

TECHNOLOGIES

TECHNOLOGY · MATERIALS · CONSTRUCTION

Vibram® Vertical Approach Sole – The outsole is molded in Megagrip rubber, with 4mm deep lugs designed with specific inclinations and angles to provide optimal traction, propulsion and braking, and features lateral grooves in the forefoot to enhance sole flex. The medial forefoot features an edging zone, providing more rubber contact with the rock under the big toe.

Vibram® Megagrip Rubber – Vibram® Megagrip rubber compound was developed for the most demanding conditions, where grip and friction take priority. Formulated specifically to perform in both wet and dry conditions, Megagrip rubber offers increased friction, with minimal reduction in durability. Megagrip is the ideal rubber compound for demanding activities such as trail running, approach, hiking and canyoneering.

GORE-TEX® ePE – GORE-TEX® ePE membrane is a revolutionary new waterproof/breathable material that is light, strong and made without PFAS, setting the standard for technical storm protection. This new GORE-TEX® enable a lower carbon footprint through the use of a new lower-mass membrane and selected textiles.

Midsole – Dual-density EVA featuring a medium density EVA base that provides structure and stability, with low density EVA top layer for added cushioning. A board-lasted construction provides optimal support and stiffness.

SCARPA Planet Friendly – Our products tread the most wonderful and unspoiled landscapes on earth. We feel we must do our best to preserve these landscapes. "Planet Friendly", products made of environment-friendly materials refer to products in which materials and processes are specifically chosen for their environmentally friendly characteristics.

ACTIVfit
SYSTEM

ACTIVfit Technology – ACTIVfit is a construction system that employs different last shapes, material combinations and construction techniques to provide the optimal fit and performance for the intended activity.
